Aarav Sharma

Machine Learning Engineer

aarav.sharma@example.com | +91 98765 43210 | Bengaluru, India

PROFESSIONAL SUMMARY

Machine Learning Engineer with experience building predictive models, recommendation systems, and deep learning applications. Strong background in Python, TensorFlow, PyTorch, SQL, and model deployment.

TECHNICAL SKILLS

Python, Machine Learning, Deep Learning, TensorFlow, PyTorch, Scikit-learn, SQL, Pandas, NumPy, Git, Docker, AWS, FastAPI

EXPERIENCE

• Machine Learning Intern — AI Labs India (2025–2026): Developed classification and regression models, performed feature engineering, and evaluated models using precision, recall and F1-score.

• Built a real-time prediction API using FastAPI and Docker and deployed ML services on AWS.

PROJECTS

• Customer Churn Prediction using XGBoost and feature engineering.

• Image Classification system using CNNs, TensorFlow and transfer learning.

EDUCATION

B.E. in Artificial Intelligence and Machine Learning — VTU, 2027

CERTIFICATIONS

Google AI Professional Certificate; AWS Cloud Foundations
